

Rhode Island Department of Transportation

POSTED BRIDGE LIST

Report Date: 2/28/2020

DEFINITIONS:

Posted Bridge:

A bridge with specific posted weight limits in tons. All vehicles exceeding the specified weight limits are prohibited, inclusive of vehicles that have an overweight permit. Any vehicle, regardless of any overweight permit, is not permitted to cross the bridge in excess of these posted weight limits.

Emergency Vehicles (EVs):

Pursuant to Section 1410 of the FAST Act (U.S. Congress, The Fixing America's Surface Transportation Act (P.L. 114-94), emergency vehicles are designed to be used under emergency conditions to transport personnel and equipment to suppress fires and mitigate other hazardous situations (23 U.S.C. 127(r)(2)). Under this provision, the gross vehicle weight (GVW) limits for EVs is 86,000 pounds with additional limitations of 24,000 pounds on a single steering axle; 33,500 pounds on a single drive axle; 62,000 pounds on a tandem axle; or 52,000 pounds on a tandem rear drive steer axle. Vehicles subject to this act are generally various fire apparatus. Refer to https://ops.fhwa.dot.gov/freight/pol_plng_finance/policy/fastact/tswprovisions/ for more information.

REPORT NOTES:

1. For posted bridges without EV tonnage values provided in this report, the weight limits for EV vehicles shall be the tonnage values given for the applicable number of axles (i.e. "two axle", "three axle", etc).
2. Blank tonnage values under the "Posted Loads" of this report indicate there is no legal load restriction for that particular axle configuration unless a "Straight" posting is designated. In that case, the "Straight" posting shall be used for any number of axles.

LEGEND:

- "S" = Specialized Hauling Vehicles. These are closely spaced multi-axle single unit trucks. Examples include special hauling vehicles such as dump trucks, construction vehicles, solid waste trucks, and other hauling trucks)
- NTLL = No Trucks in Left Lane
- Const = Bridge Closed for Construction
- "Straight" posting applies to all vehicle configurations (i.e. any axle configuration including EVs)

DISCLAIMER:

Every effort is made to ensure the information contained in this report is accurate and complete. However, actual posted signage on any bridge is subject to change. Current posted signage supersedes this report and must be obeyed. Furthermore, any overweight permit issued by RIDMV (annual, blanket, or other) is subject to these posted weight restrictions and these restrictions must be obeyed.
